All Routes+ / Steer Axle

2nd generation steer tyre engineered with innovative WESTLAKE's latest technology for both long haul and regional operations.

- Wide tread width offers high tread rubber volume to guarantee higher long mileage.
- Four wavy main grooves provide excellent handling and drainage performance on long haul and regional applications.
- Multi-lateral kerfs provide better traction and even wear.

All Routes+ / Drive Axle

2nd generation drive tyre engineered with innovative WESTLAKE's latest technology for both long haul and regional operations.

- Combination tread block design improve grip ability and driving power.
- Multi 3D sipes offer low rolling resistance and outstanding traction.
- Wide tread width guarantees riding stability and longer mileage.

All Routes / Trailer Axle

2nd generation Trailer tyre engineered with innovative WESTLAKE's latest technology for regional operations.

- Two main channel grooves and wider ribs maximises the fuel efficiency performance and provides better driving comfort.
- Two straight grooves and silent hole design in the middle guarantee enhanced water dispersion and low noise.
- Multi siping design prevent irregular wear from external forces and ensure the ideal grip performance on the wet and snow road.

## Construction Site / Steer Axle

2nd generation steer tyre with latest WESTLAKE technology for on & off operation.

- Wider tread width and solid shoulder offer improved tread stiffness, leading to an increased mileage and rolling resistance.
- Three zigzag grooves and multi-angular sipes Improve traction and braking performance.
- Polygonal block pattern provides outstanding traction and braking performance.

Construction Site / Drive Axle

2nd generation drive tyre with latest WESTLAKE technology for on & off operation.

- Aggressive and high fill to void ratio blocks provides outstanding traction and longer mileage.
- The tie-bar between blocks guarantee outstanding straight driving performance and impact dispersion for the blocks.
- Stone ejector platforms prevent stones from lodging in grooves and drilling into belts.
